Art Unit: 1751

This action is responsive to applicant's amendment/remarks filed 09/11/09. Claim 42 is currently pending. Amended claim 42 now reads on elected species 1A (Fig 3(a)).

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim 42 is rejected under 35 U.S.C. 102(b) as being anticipated by either Kuder et al (J. Organic Chem, vol 44, no5, 1979) or Renfer et al (U.S. 6,004,709).

Kuder discloses the claimed compound at page 762 (Table compound 1) when R1 and R2 = C<sub>2</sub>H<sub>5</sub>, R3 = CH<sub>3</sub>, x = H and Z = H.

Renfer discloses the claimed compound at Col 20, lines 50-60).

This rejection is maintained for the reasons set forth at pages 3-4 of the Rejection mailed 01/23/06.

Applicant's remarks regarding this rejection are noted. Also, applicant's definition of "charge transport" at page 2 of the specification is noted.

The instant claim has been amended to recite "A charge transport composition". The examiner agrees that such is not disclosed by the prior art relied upon above. However, as the claimed compound(s) are identical to the compounds disclosed by either Kuder or Renfer, such a property would be inherent. "Products of identical chemical composition can not have

Art Unit: 1751

mutually exclusive properties." A chemical composition and its properties are inseparable. Therefore, if the prior art teaches the identical chemical structure, the properties applicant discloses and/or claims are necessarily present. In re Spada, 911 F.2d 705, 709, 15 USPQ2d 1655, 1658 (Fed. Cir. 1990).

In view of the foregoing, the above claims have failed to patentably distinguish over the applied art.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

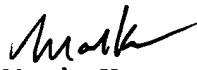

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark Kopec whose telephone number is (571) 272-1319. The examiner
